Appearance	Typical, ivory to pale yellow powder	Flavor	Typical, free of foreign flavors
Particle Size	90% through 100 mesh	Odor	Typical, free of foreign flavors

Microbiological Information

Parameter	Tolerance	Method of Determination
Total Plate Count	≤200,000 CFU/g	AOAC/BAM
Yeast & Mold	≤2,000 CFU/g	AOAC/BAM
Coliforms	≤500 CFU/g	AOAC/BAM
E. coli	<10 CFU/g	AOAC/BAM
Salmonella	Negative/25g	AOAC/BAM

Physical - Chemical Information

Parameter	Tolerance	Method of Determination
Moisture	≤11%	AOAC
Protein	≥55%	AOAC

Disclaimers

Our products have been manufactured following organic farming and handling practices in accordance with the USDA-NOP Organic Food Production Act.

The product aforementioned is fit for sale, or use for human consumption, complies with the FD&C Act and all applicable regulations promulgated thereunder, including the Preventive Controls for Human Food rule (21 CFR 117), and is not adulterated or misbranded within the meaning of the U.S. Federal Food, Drug, and Cosmetic Act, as amended, (the "FD&C Act").

Please note that our product has not undergone a pasteurization step. While composite samples of each lot are analyzed in accredited laboratory and found negative for pathogens, it is the buyer's responsibility to complete their own food safety assessment to ensure the product's suitability for their intended use. Individual circumstances may require additional processing, including but not limited to heat treatment, be completed prior to distribution.
